Health forms are located at www.sfx-school.org under RESOURCES > OFFICE FORMS & INFORMATION. Medical forms are due to the school office by August 15, 2019 and must be dated after August 27, 2018.

The State of Illinois mandates a medical form entitled, “Certificate of Child Health Examination” and/or requires a “Proof of School Dental Examination” and/or requires an “Eye Examination Report” upon entering certain grades (see chart below):

<table>

All new students (entering in any grade level) must have a current Illinois physical form, a dental form, and if moving in from outside of Illinois, an eye examination form. New students shall have 30 days following registration to comply with the health examination and immunization regulations.

Immunization requirements – All State of Illinois immunization requirements and information can be found at www.idph.state.il.us/about/shots.htm. Beginning in 2016, all 6th and 7th graders must have 1 dose of the Meningococcal immunization MCV4 and students entering K, 1st, 2nd, 6th, 7th, 8th grades must have two doses of varicella vaccine.

Unless the student is homeless, failure to comply with the above requirements by October 15, 2019 will result in the student’s exclusion from school until the required health forms are presented to the school. We ask for your diligence and timely cooperation in complying with these State requirements. We regret that no exceptions can be made to this policy.

Medical objection – A statement from the MD, DO, APN or PA indicating that an immunization is “medically contraindicated” is acceptable and will be attached to the student’s physical exam form in lieu of the vaccination. In case of disease outbreak, the student must be excluded from school. Should the condition of the child later permit immunization, the requirement will then have to be met.

Religious objection – Requires the filing of a signed Certificate of Religious Exemption form explaining the objection to physical exam, health screenings, and/or each specific immunization based on the specific religious belief that conflicts with the above interventions. This statement must also be signed by an MD, DO, APN OR PA for all students entering Kindergarten, or 6th grades requesting a religious exemption.
philosophical or moral reluctance will not provide a sufficient basis for exemption. In case of disease outbreak, the student must be excluded from school.

**Medication Authorization** – Required for any prescription or over the counter medication administered during school hours. A medication form with a physician’s signature and a parent signature is required. If you want your child to receive any medication during school hours this form must be filled out completely. A new form is required each year.

**Food Allergy/Medical Action Plan** – For any child with a severe allergy or medical condition that may require attention and support from the school nurse, SFX faculty and staff.

**Immunization Resources** – Bring a copy of your immunization records to your medical appointment.

Your most valuable resource is your primary health care provider, but following are additional resources available to you:

- Healthcare Clinic – Walgreen’s, Northfield [www.takecarehealth.com](http://www.takecarehealth.com)
- Minute Clinic – CVS Pharmacy, Evanston or Northbrook [www.minuteclinic.com](http://www.minuteclinic.com)
- New Trier Township – for possible financial assistance [www.newtriertownship.com](http://www.newtriertownship.com)

Cook County Department of Public Health no longer provides immunizations. CountyCare is a no-cost Medicaid Illinois managed care health plan for the people and families of Cook County. For additional information, contact 312/864-8200.
